

Baaske „MediTouch“ Keyboard USB

Waterproof and disinfected, IP68 silicone keypad with VESA 75 mounting

Now, mouse is no longer required. Convince yourself of our silicone keyboard with integrated Touchpad. It is easy and thoroughly to clean, and especially chemical resistant to commercial solutions, acids and bases. An excellent tactile feedback with high quality carbon contacts and a capacitive touchpad allows comfortable handling with rubber gloves.

- ▶ Integrated capacitive Touchpad operate even with using rubber gloves
- ▶ excellent, tactile feedback due to the Key Technology made from silicone
- ▶ can be dipped in liquids, IP 68
- ▶ Special coating for excellent chemical resistance
- ▶ Keypad can be switched off for easy cleaning during operation
- ▶ durable carbon coating of the switch contacts
